EDUCATION

B.TECH AI-DS, AISSMS IOIT (Gpa 8.4) Minor in Industrial Automation and Project Management	Pune Sep 2022- Jun 2026
HSC- NEW INDIA SCHOOL (First Class with Distinction) English, Physics, Chemistry, Maths, Biology, Information Technology	Pune Mar 2020- Apr 2022
SSC- NEW INDIA SCHOOL (92.60% in 10 th) English, German, Science, Maths, Computer Applications	Pune Jun 2007- Mar 2020

PROFESSIONAL EXPERIENCE

Artificial Intelligence Intern - Flowwork Automations Developed AI-powered automation tools, including a prompt-driven proposal generator and an Instagram-Facebook Custom Audience system using OpenAI APIs, Google Sheets, and Facebook Business API for smart client engagement and outreach.	Apr 2025- May 2025
Data Analytics Intern - Infotact Solutions - Completed a 3-month Data Analytics internship at Infotact Solutions, delivering two data-driven projects: Sports Performance Analytics using IPL datasets and an Anomaly Detection System for Financial Transactions. - Recognized as a Star Performer for leveraging Python, Pandas, Scikit-learn, Seaborn, and machine learning algorithms to extract actionable insights and build predictive models.	Dec 2024- March 2025

UNIVERSITY PROJECTS

ForageCompanion: AI-powered Mushroom Identification and Safety System - Built ForageCompanion, an AI-powered mushroom identification system using TensorFlow (EfficientNetB1), Flask, and AWS EC2 for real-time species classification and safety alerts. - Designed a responsive HTML/CSS/TypeScript frontend with GitHub Actions-based CI/CD pipeline for automated testing and deployment.	May 2025
ResuMatch AI: A Smart Resume Screening Tool - Built an AI-powered resume analyzer and shortlisting system using NLP and BERT to match candidates with job descriptions and rank them by relevance. - Implemented PDF text extraction, data processing, and a responsive web interface using Flask, HTML.	Feb 2025
Personalized Chatbot for Customer Service - Developing chatbot for customer service for enhanced safety, personalization and seamless integration within existing systems to meet the evolving demands. - Awarded 3rd Third Prize in 2-day National-level AMU Hackathon.	Mar 2024
Smart Autofeeder for Pets Solely developed and implemented an Arduino-based AutoFeeder to automate pet feeding, securing a position in the Top 5 out of 200 projects at a National-level competition.	July 2023

SKILLS

- Languages & Databases:** Python, C/C++, JavaScript, HTML, CSS, MySQL, MongoDB
- Hard skills:** Machine Learning, Deep Learning, NLP, Data Science, OpenCV, MLOps
- Cloud & DevOps:** AWS, Azure, Docker, Kubernetes, CI/CD
- Data Visualization & Analytics Tools:** Tableau, Power BI, Excel
- Certifications:** IBM Data Analyst Professional Certification, IBM Python for Data Science, AWS Academy Cloud Foundations, BCGX Data Science Job Simulation, Accenture Data Analytics Job Simulation
- Languages:** Fluent in English, German (A1 Certified), Hindi
- Soft skills:** Problem Solving, Leadership, Multitasking, Project management, Teamwork
